Professional Summary

An enthusiastic and goal-driven Information Technology student with a strong interest in developing efficient and scalable software solutions. Proficient in C++ and Java, and exploring full-stack web development through the MERN stack. Strong foundation in Data Structures and Algorithms, with a keen focus on writing clean, optimized, and reliable code.

Technical Skills

Programming Languages:	C++, Java, HTML, CSS, JavaScript
Frameworks / Libraries:	Node.js, Express.js, React.js, Bootstrap
Databases:	MySQL, MongoDB
Tools:	Git, GitHub, VS Code
Core Competencies:	Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Projects

Quiz Management System [GitHub]

- Developed a console-based quiz application supporting student and admin roles.
- Admins can add, edit, and delete questions, while students attempt quizzes with automatic score tracking and performance summaries.

Car Rental Management System [GitHub]

- Designed a file-handling-based car rental application with admin, customer, and driver modules.
- Implemented features like car and driver management, booking and return functionality, and persistent data storage.

Portfolio Website [Live]

- Built a personal portfolio website to showcase projects, technical skills, and achievements.
- Focused on clean UI, responsive design, and optimized performance for smooth navigation.

Education

Bachelor of Technology in Information Technology

Vidya Pratishtha's Kamalnayan Bajaj Institute of Engineering and Technology, Baramati : CGPA 8.23	2023 – 2027
Higher Secondary Certificate (HSC): 85.5%	2019 – 2020
Secondary School Certificate (SSC): 92%	2021 – 2022

Achievements

- Solved 100+ DSA problems on LeetCode in C++ and Java, focusing on algorithms, dynamic programming, and optimization. [View]
- Earned a Golden Badge in C++ on HackerRank for demonstrating strong problem-solving and coding proficiency. [View]
